# Ohio State's NEW Social Network

Download free on the App Store

uTaP

**uTaP** allows university students a revolutionary way to communicate with each other! Networking with those around you has never been simpler!

**Post** a message to a desired range, and any user within that radius will be able to tap, comment, or privately respond to your message.

**Receive** the most timely and relavent nearby information and deals without the need for friending or following users.

**Control** your target audience like never before with the ability **uTap** provides!
